Why you can trust EXANTE

Top talents on board

Dedicated service, fast troubleshooting

EXANTE comprises 700+ employees —
fintech, trading, sales and marketing specialists,
customer care and tech support engineers
in Europe and Asia.

Why you can trust EXANTE

Proprietary technology

High security, minimal latencies

EXANTE operates its native trading platform and the distributed IT infrastructure backed by 1,100+ servers across the world. EXANTE commits to high performance and stability of its trading technology.

Why you can trust EXANTE

Asset segregation

Minimising your risks

In accordance with MiFID II, we separate EXANTE's assets from the client's assets and safeguard the latter on segregated accounts by trusted custodians across the world.

Technologies behind your success

FIX API

Trading using your own infrastructure

Trade with ease right from your server, ensure seamless connection to all major exchanges. Whatever your hardware and computing resources, you can design and execute new trading strategies on your own hardware and software.

HTTP API

Fast access to the Market feed

Access any financial instrument available on the platform and get raw trade data or OHLC aggregated candles. Set up HTTP API in a snap and source live broker data!

Developer API

Market data for your applications

Employ EXANTE's Market Data API to build websites with stock tickers, smart messenger bots, mobile apps for market analysis and more.

Bring in new referrals and earn continuous bonuses

Get a fixed amount per each funded referral.

Receive extra rewards for deposits within 365 days after the first funding (for aggregated deposits from 100,000 EUR onwards).

Deposit from €10,000 to €49,999	Deposit from €50,000 to €99,999	Deposit from €100,000 to €499,999	Deposit from €500,000 to €999,999	Deposit from €1,000,000 to €4,999,999	Deposit from €5,000,000 to €9,999,999	Deposit from €10,000,000 to €19,999,999	Deposit from €20,000,000 to ∞
€200	€500	€1,000	€1,500	€3,000	€5,000*	€10,000*	0,05%* of the deposited amount

CPA is paid based on the accumulated net sum of withdrawals and deposits
30 days after the first deposit.

*Those amounts are paid in five or more installments (one installment per month) given that the referral keeps at least 80% of the total deposit amount with EXANTE on each payment date. The range for each installment is 1,000–15,000 EUR/month.

CPA 365 days

CFSC LTD pays out the difference in the CPA payment amount each time the referral's deposit hits the next payment tier, starting **from 100,000 EUR.**

After 30 days from the Funds Received Date of each referred client, the partner will receive their usual CPA payment for the tier reached. Or receive nothing if they deposited less than 10,000 EUR in 30 days.

Then it goes as follows:

If within 365 days after the first funding, the referred client does not fund anything or funds less than 100,000 EUR in total, there will be no additional payment*

If that client funds 100,000 EUR or more – the partner will receive the difference between what they have already received and what they would have received had the referred client funded their amount within 30 days from the Funds Received Date. The partner receives that additional amount after another 30 days.

The partner can receive several additional payments if the referred client keeps adding funds to their account within 365 days from the Funds Received Date.

* There will be no additional CPA payment if the referred client funds 50,000 - 99,999 EUR.
